

The background of the entire page is a vibrant red. Silhouetted against this red background are several construction workers and their work structures. On the left, a tall, vertical rebar structure is being worked on by three workers. In the center, another rebar structure stands. On the right, a third rebar structure is visible with a worker. The overall scene is one of active construction.

## BUILDING TOGETHER

### LA CONSTRUCCIÓN EVOLUCIONA Y NOSOTROS CON ELLA

YCR Complementos "somos" una empresa joven y dinámica dedicada a la comercialización de productos para el profesional de la construcción ofreciendo una gama amplia de perfiles y sistemas de nivelación.

La construcción evoluciona y es por ello por lo que apostamos por las nuevas tendencias en el sector de la cerámica proporcionando soluciones innovadoras en decoración, nivelación y protección que ofrecen máxima eficacia y garantías probadas. Apostamos por la profesionalización de cada una de las familias de producto que aparecen en nuestro catálogo dando a nuestro cliente la gama más extensa en medidas y acabados.

Nuestro eslogan es "Soluciones para Decorar y Construir", sin embargo, nuestra máxima no sólo es esa, es también prestar un servicio de excelente calidad a nuestros clientes. Creemos que en los pequeños detalles reside el éxito y es por ello por lo que disponemos de stock de todos los artículos de nuestro catálogo, y así poder ofrecer una respuesta rápida y eficiente a las necesidades de nuestros clientes.

Nuestro equipo humano es nuestro principal activo intangible y es, gracias a ellos, por lo que marcamos la diferencia en el sector. Suscribimos el proverbio africano que dice: "Si quieres ir rápido, ve solo; si quieres llegar lejos, ve acompañado".

Llevamos más de 10 años de trayectoria profesional y personal en todo el territorio nacional y extranjero. Seguimos creciendo, seguimos evolucionando.

### CONSTRUCTION EVOLVES AND WE EVOLVE WITH IT

YCR Complementos "we are" a young and dynamic company dedicated to the commercialization of products for the construction professional, offering a wide range of profiles and leveling systems.

Construction evolves and that is why we are committed to new trends in the ceramic sector, providing innovative solutions in decoration, leveling and protection that offer maximum efficiency and demonstrated guarantees.

We are committed to the professionalization of each of the product families that appear in our catalog, giving our clients the most extensive range of sizes and finishes.

Our slogan is "Solutions for Decorating and Building;" however, our maxim is not only that, but also to provide an excellent quality service to our clients.

We believe that success lies in the small details and that is why we have stock of all the items in our catalogue, and thus be able to offer a quick and efficient response to the needs of our customers.

Our human team is our main intangible asset, and it is thanks to them that we make a difference in the sector. We subscribe to the African proverb that says: "If you want to go fast, go alone; If you want to go far, go together."

We have more than 10 years of professional and personal experience throughout the national and foreign territory. We continue to grow; we continue to evolve.

## Principales cualidades de la nueva serie MAXILOT

Realizados con materiales resistentes y reciclables, este sistema permite una carga de hasta 2.000 kg. Evitando la colocación de otros materiales para la instalación del mismo se elimina un peso y un gasto superfluo.

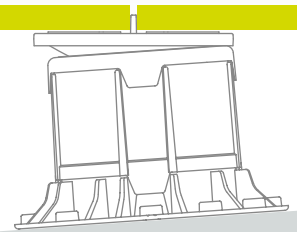

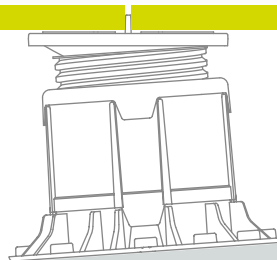

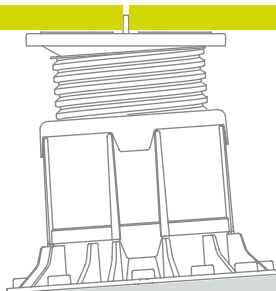

La naturaleza de los materiales de fabricación de los plots permite eliminar tanto las vibraciones del tránsito sobre el pavimento, como crear una capa de aislamiento acústico y térmico.

Las instalaciones con plots permiten un acceso rápido y sin obras a instalaciones o reparaciones de conductos debajo del mismo. Las instalaciones con plots tienen además las ventajas de un peso ligero y una larga durabilidad.

The image shows a close-up of a wall made of glass blocks. A central vertical strip of a different material, possibly a metal or plastic frame, runs down the middle. The glass blocks are arranged in a grid pattern, with some showing a grid pattern on their surface. The text is overlaid on the right side of the image.
